ICP/IDNO ICE Workshop Feedback Summary October 2018

Stay connected...

www.enwl.co.uk

- 44 stakeholders registered to attend the event, with 30 attending on the day
- This gives us an attendance rate of 68% - 18% more than the last ICP/IDNO workshop held in February 2018
- 100% of attendees rated the event as “useful” or “very useful”
- 61% of attendees receive our quarterly newsletters and all rated them as “useful” or “very useful”
- We asked stakeholders to rate each presentation on a scale of 1-10 on how informative they found the session:
 - Assessment & Design Fees and Adoption Agreements ranked highest with an average of 8/10
 - ICE Update, Health & Safety and Estates & Wayleaves also received an average score of 8/10
 - CP333 Earthing Policy, NMS and the Panel Q&A all received an average score of 7/10.

We asked what topics you'd like to hear more about during our next ICP/IDNO workshop. Here's what you told us...

- EV Charging
- ADMD Strategy
- A review of an interesting project that ENWL have been involved in
- Details of earthing changes
- Shared items of best practice
- More details on PV
- Further cover of connection offer expenses
- SDPoc
- Unmetered connections and how they fit into new policies.

Further comments.....

“There was a lack of detail in a number of topics this time”

“I’m interested in finding out more about training availability within ENWL’s academy ”

“How are DNOs working with Councils/Government regarding planning requirements for EV”

“Great length of presentations and breaks”

“Good overview of updates and ongoing/ upcoming changes”
