

# Essential power upgrade for Holcombe, Bury

**electricity**  
north west

Bringing energy to your door

## Benefits of the works:

- £450,000 investment project will benefit 600 residents and businesses in the area
- 3km of underground power cable, first installed in the 1930s, will be replaced with new environmentally friendly electricity cables
- The project begins on the 24th July between the Shoulder of Mutton pub on Lamb Carr Road and Buckden Wood for around eight weeks
- To allow engineers to safely carry out the work Helmshore Road, between Holcombe Village and Buckden Woods, will be closed for approximately eight weeks starting on the 24th July
- The essential project will help ensure that power keeps flowing, phones are fully charged and the box sets are streaming for every home in the area.

**All work will take place during the summer school holidays to keep disruption to a minimum and access for residents and businesses along the route will be maintained at all times.**
